**WEATHER PROBABILITIES, June 19, 1879.**  
For the Middle Atlantic States, northeast winds, steady, pressure, slightly warmer, partly cloudy weather.

**THE EXCURSION OF THE ST. JOHN'S ACADEMY CADER.**—As was stated in yesterday's Gazette the Cadet Corps of St. John's Academy returned yesterday afternoon from their camp in St. Mary's Co., Md. They numbered about fifty, including four drummers, and were under the command of Maj. W. B. Dent. They left on a steamer Matamoros on Thursday, the 12th, and, landing at Colonel's Wharf, reached River Springs, the residence of Dr. R. P. Beckwith, about 7 p. m. Here they remained during the week enjoying themselves as boys only can enjoy such things, in bathing, rowing, croquet, fishing, etc., varied by hard marching at 7 a. m. and dress parade at 7 p. m. The boys slept on the floors of cottages and in the hall room, wrapped in their blankets; and on Monday evening, a ball was given by the Blackstone to the cadets, which attracted all the beauty and fashion of the neighborhood attended, and which kept up until after 2 o'clock on Tuesday morning, ending with an old-fashioned Virginia reel. There was no round dancing, the people of that part of Maryland strongly disapproving it. At 10 o'clock an elegant supper was served by Dr. Beckwith.

During the stay of the cadets, they were indebted to Mrs. Col. Dent, Mrs. Walter L. Dent, Mrs. Marshall Dent, Mrs. Dr. Beckwith and others for bountiful supplies of ice cream, cake, milk, lemonade, &c., to Messrs. E. B. Hodges, Coad, Haydon, and others for various attentions. At 9 o'clock on Tuesday the cadets marched to Colonel's wharf, and embarked on the Matamoros for Nantux Creek, whence they were conveyed to Leonardtown, Md., arriving about 9 p. m. They paraded this ancient town, drilling in front of the hotels and eliciting many encomiums upon the accuracy of their movements. They were most courteously received by the citizens generally and especially by Messrs. F. M. Dyer, Moore, Bailey, and others, who showed them, individually, many attentions. Thoroughly tired and delighted, and to Captain Byles, Purser Haves, and the officers and crew of the Matamoros in general, the cadets are under obligations for many acts of consideration. No accidents beyond the losing of two or three caps overboard occurred, and the health of all was excellent.

**THE NORFOLK BOATS.**—The convenience of the Norfolk boats to the traveling public is becoming more and more apparent daily, and the passengers to the two lines of steamers on that route, with much energy and enterprise, are making it such a favorite one that it has not only become so with travelers, but large numbers of persons take the trip as a pleasure excursion, and receive such attention, and are so well accommodated, that they are found in their praise of the steamers, officers, accommodation, and fare. The steamer Geo. Leary, of the Plant Line, for which Capt. P. B. Hume is agent, is commanded by Capt. Joe White and purser J. McLean, both polite and accommodating gentlemen, and is a new, fast and commodious steamer with elegant appointments.

The steamers Lady of the Lake and Jane Mesley, of the Island and Seaboard line, of which Mr. P. A. Reid is agent, have lately been put in thorough order, and are also most admirably officered. The Lady by Capt. Travers, and the Mesley by Capt. Bonaville, with Mr. L. D. Bond as purser, a gentleman who is so useful in his attention to his passengers that he has won the hearts of friends and made him one of the most popular steamboat men on the river. The fare on either of these lines is so low that it affords an excellent opportunity for a trip to salt water, and all who take it may be assured that they will be kindly and attentively treated, and will be served with all the delicacies of the season, prepared in the most delightful and tempting manner by the chefs.

**THE UNION GOSPEL MEETINGS.**—The Bible reading at 5 p. m. yesterday was on "Pistis heard. The consecration of Aaron and his sons, and their relation to each other as prefiguring the relation between Christ and his Church; the high priest's office to deliver to the people the will of God, and his life as the perfect sacrifice."—were expounded by the Rev. Mr. J. M. Johnson, of the Baptist Church, in a most refreshing and interesting manner. His discourse was full of truth, and his words were blessed. His discourse was full of truth, and his words were blessed. His discourse was full of truth, and his words were blessed.

**FINE VESSEL.**—Among the arrivals at this port to-day was the schooner Hattie S. Williams, bound from Georgetown to New Bedford. Like all vessels of any size, she is well fitted out at this city, and, like most of them, got aground in "the Cut" above the Long Bridge, and was only gotten off this morning after considerable trouble. The Williams is the largest schooner which sails out of United States ports, carrying between 1400 and 1500 tons. She was built at Bath, Me., and this is her first trip. The vessel is built in the most substantial and elegant manner, being fitted throughout in the most modern and approved style. She is provided with a steam engine and machinery for hoisting her sails and anchors. She is commanded by Capt. Staples, a most experienced and courageous seaman. The vessel was visited to-day by a large number of persons anxious to inspect her.

**SUDDEN DEATH.**—J. William Morgan, a colored man who lived at the corner of Cameron and Alfred streets, died quite suddenly about five o'clock this morning. He had been afflicted with dropsy for some time, but was able to cut last night, having walked to his mother's house, on Royal street, and returned early in the evening. Shortly after midnight he complained of feeling much worse than usual, and became speechless. He remained in that condition until 5 o'clock, when he died. Morgan was well known in town, and was a member of the Colored Conservative Club.

**CORPORATION ATTORNEY.**—The appointment of C. E. Surr, Esq., as Judge of the Corporation Court, has made vacant the position of Corporation Attorney, and several gentlemen have already been named for that office. Among them are Messrs. Albert Smith, J. M. Johnson and W. K. Peckall.

The election will probably not be made until the new Council is organized on the 1st proximo, as any appointment made now would only hold good until that time.

**ACCIDENT.**—While some boys were playing with a hammock, at the upper end of Orange street, last evening, one of them, named Willie Simms, was thrown to the ground and knocked senseless, remaining so for an hour. Dr. Freuch was called in and rendered medical assistance. The boy's condition was somewhat improved this morning.

**THE TAX SALE.**—The sale of delinquent property for city tax was continued to-day, the first and second wards being gone through with.

All of the property was knocked down to the City Council, except two houses and lots in the First Ward, which were bought by relatives of the owners at a small advance on the amount of taxes due.

When some property belonging to Mr. W. N. McVeigh was put up, that gentleman stood on the steps and read a paper complaining of bad treatment in the matter of his taxes. He said that he expected to have money to pay the taxes in a short time, and had so informed the authorities. He further said that his property was assessed much too high anyway, and the amount of taxes already paid by him had more than cancelled any indebtedness to the city. The sale went on as before, no comment being made on the remarks.

**REVIVAL.**—A revival commenced in the Methodist Protestant Church, last night, under very favorable auspices, a much interest being manifested. The services will be conducted by Rev. Messrs. Graham, King and Trout, one of whom will preach each night during their continuance.

**PERSONAL.**—The Warrington South says that Colonel Wm. A. Stewart and family of this city, are at the Warren Green for a few weeks stay.

**CATTLE.**—The cattle shipping season, on the Mid and Road, commenced on Saturday, when several car loads were shipped from Lynchburg. They came from the Southwest.

**THE METHODIST SUNDAY SCHOOL.**—The school will have a picnic at Carlin's Springs on Thursday next.

Attention is called to the sale of valuable real estate on Prince and Royal streets to take place to-morrow.

Marriage licenses were granted in Washington yesterday to J. J. Craig and Virginia E. Crow, of Manchester, Va. D. J. Moffat of that city, and Joanna Williamson, of Prince William County, Va.

A sail boat containing two Washingtonians arrived off Prince street wharf to-day, but its occupants were rescued by a boat from the shore.

"Future Happiness." All those who have the future happiness of children at stake, should know that Dr. Bull's Baby Syrup contains nothing injurious.

## CONGRESSIONAL.

Reported for the Alexandria Gazette, Washington, June 19, 1879.

SENATE.

During the morning hour twenty five democrats and five republicans were present. This number was increased from time to time by other Senators coming into the chamber. After a long pause in the proceedings, Mr. Winters, at ten minutes to 12 o'clock, made a parliamentary inquiry. It was whether if the Senate adjourn now, the legislative day of Thursday would commence at noon. The chair responded that it would. Mr. Winters then made the motion which was carried. The Senate re-assembled at twelve o'clock, and the session was opened with prayer by the chaplain. The chair stated that he was informed by the clerk, that owing to the length of the previous session, the Journal was not completely made up. He suggested, therefore, that the reading thereof be dispensed with.

Mr. Cocking—I object and insist on the observance of the rule, which provides that the first business is the reading of the Journal.

Mr. Davis, of West Va.—I take it—

Mr. Cocking (interrupting)—I object to all debate.

The Chair.—The reading of the Journal cannot be dispensed with except by unanimous consent.

HOUSE OF REPRESENTATIVES.

Mr. McMahon, of Ohio, submitted the conference report upon the judicial expenses bill. Under the report section 2 of the bill will prohibit the making of any contract or the incurring of any liability under any of the provisions of title 26 of the revised statutes.

Mr. Monroe, of Ohio, one of the conferees on the part of the House, explained the reason of his opposition to the report, and in answer to Mr. Cox expressed his intention to vote against it. Mr. Cox himself intimating that he would do the same, but for a different reason.

Then Mr. Garfield made a strong speech, laying down the republican policy on the question, arguing that the bill was a nullification of law; that it placed the President in an attitude where he must either observe his oath and execute the laws and thereby subject himself to impeachment, or must violate his oath and his conscience. No President would allow himself to be put in such an attitude, and therefore, said he, in conclusion, farewell to all prospects of home.

We stay. This demonstration was greeted with applause on the republican side. Mr. Springer, of Illinois, replied to Mr. Garfield, and declared if the President vetoed this bill he would put himself in an attitude of defying the majority in Congress and demanding of that majority to do what was wrong. They would not do it. He then made some remarks on the republican side of "what is next?"

Mr. McMahon sustained the report against Mr. Garfield, and provoked the derisive jeers of the republicans by an allusion to the President as "this fraudulence."

The report was then adopted by a strict party vote—102 to 79.

The House then took up the trade dollar bill.

**FOREIGN NEWS.**

The recall of Mahomed Nedid has been counter-manded and the crisis in the Turkish ministry is ended.

The British steamer Thersis, from Havre, bound to Bombay, has been wrecked one hundred miles from Aden. No lives were lost.

The elementary education bill which the clerical minority opposed, has passed the Belgian Senate by a vote of 33 to 31.

The score of the boxing match at 4 p. m., to-day was: Weston 301 miter; Brown 356 miter. Weston is doing poorly. He says this will be his farewell performance in London, so he intended to make it by an endeavor to cover 550 m. l.

Two brothers, belonging to the French fishing vessel L'Amelia Marie, of the island of St. Pierre and Miquelon, have been rescued from an open boat off New England and landed at Cardiff after drifting eight days. They are terribly exhausted and emaciated from cold and hunger.

The Congress of the French Senate and Chamber of Deputies will meet in the hall of the latter to-day. M. Martel, President of the Senate, will be ex officio chairman of the Congress. It is expected that M. Buffet will speak against the return of the chambers to Paris, and that he will be answered by one of the ministers. Probably another session speech will follow and then a vote be taken on the repeal of clause nine of the Constitution which will be adopted by a vote of about 480 to 270 with 60 or 70 abstentions or neutrals.

The miners held a conference at Birmingham, England yesterday, to discuss a declaration of the proposed strike in the coal mines of the district for a general suspension of work at the end of June, unless the wages of the miners are advanced 6d. per hundred and seventy thousand miners registered by the delegates present.

A resolution was adopted confirming in principle the Barley proposition, the details of which will be discussed to-day. There is a strong party in favor of awaiting a rival of trade before adopting an extreme course, and as the leaders in the movement seem impressed with the necessity of unanimity, action may be deferred, when a settlement of the details is attempted.
